COMPANY PROFILE

ABOUT BFM

Established in 2003, BFM is a leading retail and wholesale company specializing in high-quality products across the cooling, heating, plumbing, and solar energy sectors. With a strong commitment to excellence and innovation, we offer a diverse range of premium products from world-renowned brands, ensuring our customers receive the best solutions available.

WORK EXPERIENCE

BFM's journey began in Switzerland, where we built a solid foundation based on quality, transparency, and customer trust. Following our early successes, we identified an opportunity to expand our operations to Macedonia, creating a strategic economic bridge between Switzerland and Macedonia. This strategic expansion allowed us to bring world-class solutions to a broader market while maintaining the highest standards of quality.

GROWTH AND EXPANSION

Initially managed by our founder, BFM's success was driven by dedication and attention to detail. In the early years, our focus was on establishing strong supplier relationships and efficient logistics from Switzerland to Macedonia. Recognizing the growing demand for top-tier products, we expanded our offerings in 2007, starting with Aluplast piping materials. Since then, our product portfolio has grown significantly to include a wide variety of solutions in heating, cooling, plumbing, and solar energy, meeting the evolving needs of our customers.
